

## OptConnect Expands Facility and Operations to Meet ATM Wireless Demand

*Benefits of Switching ATMs to Wireless Catching on Across North America*

**KAYSVILLE, Utah, Jan. 31, 2011** — OptConnect ([www.OptConnect.com](http://www.OptConnect.com)), a Grant Victor company and a leading provider of wireless ATM connectivity solutions, recently expanded its facility and operations to meet the growing demand of wireless connectivity from ATM operators.

More and more ATM operators are converting their entire ATM portfolios from landlines to wireless as they increasingly realize the benefits and savings of switching. OptConnect provides cost savings, reliability and simplicity for its ATM customers with fast and secure wireless connectivity.

“Due to the growing adoption of wireless connectivity, we’ve had to expand our facilities to support our growth,” said Chris Baird, general manager of OptConnect. “We’ve also hired additional staff to accommodate expanded sales, operations and customer support needs to meet the growing demand.”

OptConnect offers all inclusive rate plans with an unlimited life time warranty with monthly rates—as low as \$19.99 with no upfront purchase costs.

OptConnect wireless benefits for ATM operators include:

- **Cost Savings.** OptConnect wireless service plans can cut the total costs of communications to as much as half the cost of landlines with no upfront or installation costs.
- **Secure Connectivity.** OptConnect wireless gateways can provide reliable and secure connections, superior to traditional landlines.
- **Reliable Technology.** Due to its wide coverage and increased data transfer speeds, the OptConnect wireless gateway allows ATMs to be located anywhere—free from the limits of a landline infrastructure.
- **Simple Installation.** OptConnect wireless gateways are simple to install for same-day deployment increasing flexibility since ATMs can be deployed and relocated anywhere.
- **Lifetime Warranty.** OptConnect offers a lifetime warranty with advance overnight replacement.

OptConnect’s line of wireless gateways is available at [www.OptConnect.com](http://www.OptConnect.com).
